

INSTRUCTIONS FOR MEASURING SHEEP

All measurements must be made with a 1/4-inch wide flexible steel tape to the nearest one-eighth of an inch. Enter fractional figures in eighths, without reduction. Official measurements cannot be taken until horns have air dried for at least 60 days after the animal was killed.

- A. Greatest Spread** is measured between perpendiculars at a right angle to the center line of the skull.
- B. Tip to Tip Spread** is measured between tips of horns.
- C. Length of Horn** is measured from the lowest point in front on outer curve to a point in line with tip. **Do not** press tape into depressions. The low point of the outer curve of the horn is considered to be the low point of the frontal portion of the horn, situated above and slightly medial to the eye socket (not the outside edge). Use a straight edge, perpendicular to horn axis, to end measurement on "broomed" horns.
- D-1. Circumference of Base** is measured at a right angle to axis of horn. **Do not** follow irregular edge of horn; the line of measurement must be entirely on horn material.
- D-2-3-4. Divide measurement C** of longer horn by four. Starting at base, mark **both** horns at these quarters (even though the other horn is shorter) and measure circumferences at these marks, with measurements taken at right angles to horn axis.

ENTRY AFFIDAVIT FOR ALL HUNTER-TAKEN TROPHIES

For the purpose of entry into the Boone and Crockett Club's® records, North American big game harvested by the use of the following methods or under the following conditions are ineligible:

- I. Spotting or herding game from the air, followed by landing in its vicinity for the purpose of pursuit and shooting;
- II. Herding or chasing with the aid of any motorized equipment;
- III. Use of electronic communication devices, artificial lighting, or electronic light intensifying devices;
- IV. Confined by artificial barriers, including escape-proof fenced enclosures;
- V. Transplanted for the purpose of commercial shooting;
- VI. By the use of traps or pharmaceuticals;
- VII. While swimming, helpless in deep snow, or helpless in any other natural or artificial medium;
- VIII. On another hunter's license;
- IX. Not in full compliance with the game laws or regulations of the federal government or of any state, province, territory, or tribal council on reservations or tribal lands;

I certify that the trophy scored on this chart was not taken in violation of the conditions listed above. In signing this statement, I understand that if the information provided on this entry is found to be misrepresented or fraudulent in any respect, it will not be accepted into the Awards Program and 1) all of my prior entries are subject to deletion from future editions of **Records of North American Big Game** 2) future entries may not be accepted.

FAIR CHASE, as defined by the Boone and Crockett Club®, is the ethical, sportsmanlike and lawful pursuit and taking of any free-ranging wild, native North American big game animal in a manner that does not give the hunter an improper advantage over such game animals.

The Boone and Crockett Club® may exclude the entry of any animal that it deems to have been taken in an unethical manner or under conditions deemed inappropriate by the Club.
